

Takahashi City Matsuyama High School

School Introduction by the 4th grade students in December 2020

Overall

Matsuyama High School has twenty students and nineteen teachers now. We start lessons at 17:40 from Monday to Friday. Some students work before school and all of us study hard for 4 years. We have a good friendship and sometimes all of the students have a lesson together.

(Written by Fumiko Inoue)

We have a badminton club, a table tennis club and a baseball club. We usually practice until around 10 at night after school. The ages of students are from the teens to 70s. We all learn together and are having fun.

Animals and Plants

Our school has a lot of animals and plants. There is a hamster and there are many goldfish and killifish, three Mexican Salamanders (Wooper-Looper) and three hermit crabs and so on. Students love them very much. We also grow many plants such as sweet potatoes, strawberries, gourds, and watermelons. This autumn, we harvested and ate sweet potatoes. We enjoyed them. Our school is very unique and we have a lot of fun.

School events

Matsuyama High School has many interesting school events such as a cultural festival, a sports day, a welcome party, school trips and so on. The school council actively works for these school events. We will introduce some of them here.

– Cultural festival –

Matsuyama High School is a small group but we cooperate for the cultural festival. It is one of the most exciting events. All of us are excited making artwork and cooking to running food stalls. Come to Matsuyama High School!

– Astronomical observation trip to Biesei –

We go to Bisei Astronomical Observatory in autumn every year. We observe the moon, stars and planets with a large telescope. We can learn a lot about astronomy through this school trip. We are very impressed by this experience.

– The 4 day school trip in November 2020 –

The 4th grade students traveled to Kagawa, Tokushima and Kochi prefectures as a school trip in November 2020. We visited so many places, for example, Shikoku Aquarium, Kompira Shrine, Reoma World, Oboke and Koboke Gorges, Scarecrow Village, Katsurahama Beach and so on. We also experienced many activities. We were very excited and had many good experiences. We will never forget this memory of the school trip.
